

Category:	Non-Capacity Solenoid Pump
Application:	Water Series
Classification:	Pressure (Piston) Type

FEATURES:

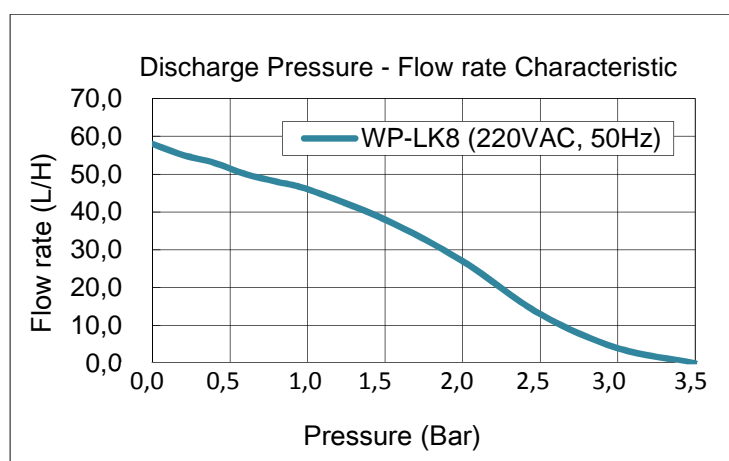

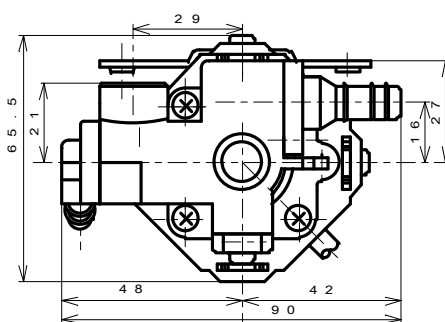

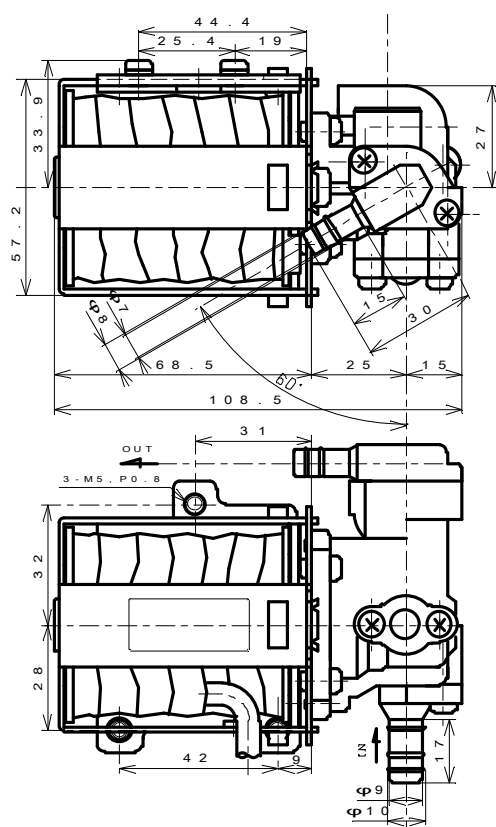

- This model has a most capacity in water series pumps.

PRIMARY APPLICATION:

- Used to transfer water-based liquids under pressure. (Cooling system, Circulation pump)

**SPECIFICATIONS:**

SPECIFICATIONS	MODELS	WP-LK8
Power Sources		100 - 240VAC (50 or 60Hz) [Half-Wave Rectifier is Required]
Power Consumption		55W (TyP.) / 70W (Max)
Maximum Free Flow Rate		60L/H (TyP.)
Maximum Pressure (No Flow)		0.35MPa (TyP.)
Suction Level		-0.5m ~ 0m
Fluid		Water
Operating Temperature		-20 ° C ~ 40 ° C (Non-Freezing)
Weight		0.9Kg
